INDEX TO VOLUME XXV

Page numbers preceded by " (P) " refer to the summaries of symposia and papers at the Spring and Summer Meetings of the Thoracic Society

A

N-Acetylcystein and 2-mercaptoethane sulphonate nebulized with isoproterenol, clinical and physiological evaluation as mucolytic agents in chronic bronchitis, 737
ADEYOKUNNU, A., *see* Seriki, O., Adeyokunnu, A., and De La Cruz, T. O.
Air pollution and exacerbations of bronchitis, 525
Airflow obstruction, chronic, relation between spirometric measurements and arterial blood gas analysis in, 598
Airway closure and respiratory impairment in untreated idiopathic scoliosis, 451
conductance changes after cigarette smoking, repeatability of measurements and effect of various filters, 418
obstruction, chronic, clinical features in, relation to sensitivity to carbon dioxide, 150
obstruction, chronic, relation between physical signs and clinical and physiological pattern of, 285
resistance changes, acute, in children, exercise studies of (P), 258
Allergic alveolitis in coffee workers, 399
alveolitis in mushroom workers, 25
aspergillosis and aspergilloma, inhalation experiments with *A. fumigatus* extracts in, 11
ALLWORK, S. P., *see* Singh, M. P., Bentall, H. H., Bell, W. R., Olsen, E. G. J., and Allwork, S. P.
ALPERS, J. H., *see* Clarke, B. G., Guyatt, A. R., Alpers, J. H., Fletcher, C. M., and Hill, I. D.
Alveolar duct system, microanatomy of, 141
epithelium, pulmonary, phagocytic potential of, and surfactant metabolism, 110
macrophages, enzyme activity of, effect of sulphur dioxide in rats, 612
microlithiasis, pulmonary, with involvement of sympathetic nervous system and gonads, 637
proteinosis, pulmonary, experimental, pathogenesis of, 230
Alveoli and pulmonary arteries, growth in childhood, 669
Alveolitis, allergic, in coffee workers, 399
allergic, in mushroom workers, 25
fibrosing, and polymyositis, 504
Ampicillin levels in sputum, serum and saliva, 304
Amyloid nodule, solitary, in lung, 382
Anaerobic infection, mixed, destructive pulmonary disease due to, 41
Anaesthesia for prolonged bronchoscopy, 540
Ancrod, prevention of thrombosis on prosthetic heart valves by, 472
ANDRE-BOUGARAN, J., *see* Bignon, J., Andre-Bougaran, J., and Brouet, G.
Aneurysm, aortic, dissecting, with disseminated aspergillosis, 702
Aorta, ascending, cannulation of, for open heart surgery, complications of, 604
coarctation of, 347
coarctation of, bilateral pulmonary varicosities associated with, 97
coarctation of, management in first six weeks of life, 413
thoracic, ruptured, repair using left ventriculo-aortic support, 213
Aortic aneurysm, dissecting, with disseminated aspergillosis, 702
arch, congenital interruption of, and ventricular septal defect, total correction of, 615
insufficiency and prolonged atrio-ventricular conduction, 577
root, hypoplasia of, and problem of aortic valve replacement, 339
valve prostheses with fascia lata, design and construction of, 436
valve replacement, central flow tilting disc valve for, 439
Arterial and venous circulation in animals and man, effect of respiratory obstruction, 1
blood gas analysis and spirometric measurements, relation between, in chronic airflow obstruction, 598
embolism, early open mitral valve surgery after, 325
Arthritis and arthralgia in *Mycoplasma pneumoniae* infection, 748
Asbestos exposure and pleural abnormalities (P), 510
Asbestosis in dockyard workers (P), 510
ASHERSON, G. L.: Experimental background to immunity deficiency states (P), 254
Aspergillosis, disseminated, complicating dissecting aortic aneurysm, 702
pulmonary, necrotizing, 691
Aspergillus fumigatus extracts, inhalation experiments in allergic aspergillosis and aspergilloma with, 11
fumigatus infection of pleura, 245
mycetoma, fever in, 19
Asthma, bronchial, and chronic obstructive bronchitis, comparison of pulmonary function in, 101
bronchial, pulmonary function in status asthmaticus and effect of therapy, 581
exercise tests in children with, clinical value of (P), 258
Atrial septum, translocation of, 499
Atrio-venous junctions, myocardial fibres of, and sleeves over pulmonary and caval veins in various mammals, 317

Atrio-ventricular conduction, prolonged, and aortic insufficiency, 577
Atrium, left, giant, 190
left, pressure, need for measurement after cardiac valve surgery, 185
myxoma of, with saddle embolus, in child, 634
ATTWOOD, E. C., BROOKS, W., and LECKIE, W. J. H.: Anaesthesia suitable for prolonged bronchoscopic examination, 540

B

BAGSHAWE, K. D.: Choriocarcinoma: chemotherapy (P), 513
BALCON, RAPHAEL, *see* Bennet, David, Balcon, Raphael, Hoy, Judith, and Sowton, Edgar
BALL, J. D.: Pleural abnormalities and asbestos exposure (P), 510
BANKS, D. C., *see* Negus, V. E., Oram, S., and Banks, D. C.
BARCLAY, N., OGBEIDE, M., and GRILLO, I. A.: Gross hypertrophic pulmonary osteoarthropathy in a 7-year-old child, 484
BARGERON, L. M., Jr., *see* Hunt, David, Edwards, W. Sterling, Deverall, Philip B., and Bargeron, L. M., Jr.
BARKAY, MICHEL, *see* Nathan, Hilel, Orda, Ruben, and Barkay, Michel
BARNES, N. D., *see* Lincoln, J. C. R., Barnes, N. D., Gould, T., and Reynolds, E. O. R.
BARRETT, N. R.: The pleura: with special reference to fibrothorax, 515
BARRY, DAVID H., and MAWDESLEY-THOMAS, LIONEL E.: Effect of sulphur dioxide on the enzyme activity of the alveolar macrophage of rats, 612
BATES, MICHAEL: Results of surgery for bronchial carcinoma in patients aged 70 and over, 77
BATTEN, JOHN C., *see* Mitchell-Heggs, Peter F., and Batten, John C.
BAUM, MICHAEL, *see* Cullum, Patric A., Baum, Michael, Clarke, Andrew, Wemyss-Gorman, Peter B., Howard, Edward, and McClelland, R. M. A.
BELCHER, J. R.: World-wide variation in the sex incidence of bronchial carcinoma (P), 511
BELL, W. R., *see* Singh, M. P., Bentall, H. H., Bell, W. R., Olsen, E. G. J., and Allwork, S. P.
BENNETT, DAVID, BALCON, RAPHAEL, HOY, JUDITH, and SOWTON, EDGAR: Haemodynamic effects of dextro-propranolol in acute myocardial infarction, 86
BENTALL, H. H., *see* Singh, M .P., Bentall, H. H., Bell, W. R., Olsen, E. G. J., and Allwork, S. P.
— *see* Singh, M. P., Bentall, H. H., and Oakley, C. M.
BERNSTEIN, L., *see* Nicks, Rowan, Cartmill, T., and Bernstein, L.
BIGNON, J., ANDRE-BOUGARAN, J., and BROUET, G.: Parenchymal, bronchiolar, and bronchial measurements in centrilobular emphysema: relation to weight of right ventricle, 556
BIJTEL, J. H., *see* Eijgelaar, A., and Bijtel, J. H.
BJÖRK, VIKING OLOV: Central flow tilting disc valve for aortic valve replacement, 439
BJURE, J., GRIMBY, G., KASALICKÝ, J., LINDH, M., and NACHEMSON, A.: Respiratory impairment and airways closure in patients with untreated idiopathic scoliosis, 451
Blastomycosis, clinical aspects of, 708
BLESOVSKY, ARY, *see* Salama, Fayek D., and Blesovsky, Ary
Blood gas analysis, arterial, and spirometric measurements, relation between, in chronic airflow obstruction, 598
gases, measurement of, and respiratory failure (P), 511
BLYTH, W., *see* Kennedy, W. P. U., Malone, D. N., and Blyth, W.
BOOTH, VIVIEN, *see* Stark, J. E., Heath, R. B., Oswald, N. C., Booth, Vivien, Tall, Ruth, Fox, Wallace, Moynagh, K. D., and Inglis, J. M.
BORMAN, J. B., MERIN, G., ROMANOFF, H., and MILWIDSKY, H.: Early open mitral valve surgery following arterial embolism, 325
BORRIE, JOHN: Prosthetic tracheal replacement (P), 257
— and SHEAT, J.: Spontaneous intramural oesophageal perforation, 294
BOUGARAN, J. ANDRE-, *see* Andre-Bougaran, J.
BRADLEY, R. D.: The genesis of pulmonary oedema (P), 511
— and BRANTHWAITE, M. A.: Circulatory effects of potassium, glucose and insulin following open-heart surgery, 716
BRAIMBRIDGE, M. V., *see* Meredith, G., Sawyer, R., and Braimbridge, M. V.
— *see* Sarin, C. L., Yalav, E., Clement, A. J., and Braimbridge, M. V.
BRANTHWAITE, M. A., *see* Bradley, R. D., and Branthwaite, M. A.
Breast, carcinoma of, hormone therapy in (P), 513
Breathing patterns in health and disease (P), 255
sounds (P), 255
British Thoracic and Tuberculosis Association: Joint Meeting with Thoracic Society, 508
BROM, A. G., *see* Roos, J. P., Hartman, H., Schaar, H. van der, and Brom, A. G.
Bronchial and bronchiolar measurements in centrilobular emphysema, relation to weight of right ventricle, 556
artery, right, anatomical description and technique of surgical approach, 328
asthma and chronic obstructive bronchitis, comparison of pulmonary function in, 101
asthma, pulmonary function in status asthmaticus and effect of therapy, 581
carcinoma, sex incidence of, world-wide variation in (P), 511
carcinoma, surgical results in patients aged 70 and over, 77
muscle, hyperplasia of, in chronic bronchitis (P), 512
rupture, deep cervical emphysema as early symptom of, 120
tumours, treatment by lobectomy with sleeve resection, 160
Bronchitis, chronic, hyperplasia of bronchial muscle in (P), 512
chronic, mucolytic agents nebulized with isoproterenol in, clinical and physiological evaluation, 737
chronic obstructive, and bronchial asthma, comparison of pulmonary function in, 101
exacerbations of, and air pollution, 525
Bronchoscopy, prolonged, anaesthesia for, 540
Bronchus, sleeve resection of, and lobectomy in treatment of bronchial tumours, 160

BROOKS, A. G. F., *see* Lawther, P. J., Brooks, A. G. F., and Waller, R. E.
BROOKS, W., *see* Attwood, E. C., Brooks, W., and Leckie, W. J. H.
BROUET, G., *see* Bignon, J., Andre-Bougaran, J., and Brouet, G.
BURKE, B. J., STORRING, F. K., and PARRY, T. E.: Disseminated aspergillosis, 702
BURNELL, R. H., GHADIALI, P. E., JOSEPH, M. C., and PANETH, M.: Management of critical valvular outflow obstruction in neonates, 116
Busulphan lung (P), 257

C

Calcification, resorption in primary pulmonary tuberculosis, 643
CAMERON, S. J., *see* Matthews, J. D., Cameron, S. J., and George, M.
CAMPBELL, A. H., *see* Tandon, M. K., and Campbell, A. H.
CAMPBELL, E. J. M., *see* Godfrey, S., Edwards, R. H. T., Campbell, E. J. M., and Newton-Howes, J.
Canada, tuberculosis control in (P), 508
Cannulation of ascending aorta for open heart surgery, complications of, 604
Capreomycin, serum electrolyte abnormalities induced by, in tuberculosis, 608
Carbon dioxide, sensitivity to, relation to clinical features in chronic airways obstruction, 150
Carcinoma, bronchial, sex incidence of, world-wide variation in (P), 511
bronchial, surgical results in patients aged 70 and over, 77
of breast and prostate, hormone therapy in (P), 513
pulmonary, mediastinal spread of, early detection by mediastinoscopy, 720
pulmonary, resection for, long-term clinical follow-up, 62
Cardiac hypertrophy, relation of post-mortem size and structure of carotid body to, 129
myxoma, ultrastructure of, 756
pacemakers *see* Pacemakers
Cardiopulmonary bypass in management of critical valvular outflow obstruction in neonates, 116
performance at rest and during exercise in 7 patients with increased transradiancy of one lung, 587
Carotid body, post-mortem size and structure, relation to pulmonary disease and cardiac hypertrophy, 129
CARTMILL, T., *see* Nicks, Rowan, Cartmill, T., and Bernstein, L.
CATTELL, W. R.: Systemic lupus erythematosus: treatment, with special reference to 'lupus nephritis' (P), 510
CAVES, P. K., GEDDES, J. S., and SCOTT, M. E.: Device for implantation of long-term transvenous cardiac pacemaker electrodes, 288
— *see also* Smiley, T. B., Caves, P. K., and Porter, D. C.
Cavitation in pulmonary metastases, 375
Cervical emphysema, deep, as early symptom of bronchial or tracheal rupture, 120
CHAPPELL, A. G.: Familial sarcoidosis with tuberculosis (P), 512
CHATTERJEE, K., *see* Siddons, A. H. M., Chatterjee, K., Harris, A. M., and Peard, M.
CHAUDHURI, M. RAY: Cavity pulmonary metastases, 375
— and PARKER, D. J.: A solitary amyloid nodule in the lung, 382
CHEAH, P. C., *see* Otto, T. J., and Cheah, P. C.
Chest injury, minor, haemomediastinum in haemophiliac after, 372
injury, report on 80 cases (P), 511
radiographs, determination of lung volumes from, 544
Chondrosarcoma of lung, primary, 366
Choriocarcinoma, chemotherapy of (P), 513
Chylothorax and chylous reflux (P), 256
CITRON, K. M.: Primary immunity deficiency in adults (P), 254
CLARK, T. J. H.: The management of respiratory failure (P), 511
CLARKE, ANDREW, *see* Cullum, Patric A., Baum, Michael, Clarke, Andrew, Wemyss-Gorman, Peter B., Howard, Edward, and McClelland, R. M. A.
CLARKE, B. G., GUYATT, A. R., ALPERS, J. H., FLETCHER, C. M., and HILL, I. D.: Changes in airways conductance on smoking a cigarette: a study of repeatability and of the effect of particulate and vapour phase filters, 418
CLARKE, D. B., and NELIGAN, M. C. J. A.: Multiple prosthetic vascular implants into the acutely ischaemic myocardium, 290
CLARKE, H. G. MINCHIN, FREEMAN, T., HICKMAN, R., and PRYSE-PHILIPS, W. E. M.: Quantitative immunoelectrophoretic analysis in patients with tuberculosis and sarcoidosis, 423
CLARKE, O.: Tuberculosis control in Canada (P), 508

E

EBERT, PAUL A., *see* Wolfe, Walter G., and Ebert, Paul A.
Edwards, Arthur Tudor, and development of thoracic surgery, 515
EDWARDS, CHRISTOPHER, *see* Heath, Donald, Edwards, Christopher ,anJ Harris, Peter
EDWARDS, R. H. T., *see* Godfrey, S., Edwards, R. H. T., Campbell, E. J. M., and Newton-Howes, J.
EDWARDS, W. STERLING, *see* Hunt, David, Edwards, W. Sterling, Deverall, Philip B., and Bargeron, L. M., Jr.
EIJGELAAR, A., and BIJTEL, J. H.: Congenital cleft sternum, 490
— and HOMAN VAN DER HEIDE, J. N.: A reliable early symptom of bronchial or tracheal rupture, 120
Electrolytes, serum, abnormalities induced by capreomycin in tuberculosis, 608
Embolism, arterial, early open mitral valve surgery after, 325
pulmonary, massive, acute, after pulmonary resection, 359
Embolus, saddle, in atrial myxoma in child, 634
EMERSON, PETER: Clinical manifestations of disorders of the pulmonary and pleural lymphatics (P), 256
EMERY, J. L., *see* Verel, D., Taylor, D. G., and Emery, J. L.
Emphysema and polyalveolar lobe in childhood, 682
centrilobular, parenchymal, bronchiolar and bronchial measurements in, relation to weight of right ventricle, 556
cervical, deep, as early symptom of bronchial or tracheal rupture, 120
Empyema, chronic, 521
Endocardial pacing, long-term, problems in children (P), 256
Enzyme activity of alveolar macrophage, effect of sulphur dioxide in rats, 612
Epithelioid cells in sarcoidosis, histochemistry and fine structure of (P), 255
ERASMUS, D., *see* Williams, W. Jones, Erasmus, D., James, E. M. Valerie, and Williams, D.
— *see* Williams, W. Jones, Jenkins, D., and Erasmus, D.
Exercise, effect on cardiopulmonary performance in 7 patients with increased transradiancy of one lung, 587
tests in children (P), 258
Expiratory volume, relaxed, and forced inspiratory volume, variability of, 178

F

Fascia lata aortic valve prostheses, design and construction of, 436
lata grafts, autologous, composite, for right ventricular outflow tract and pulmonary artery reconstruction, 427
lata grafts, autologous, for heart valve replacement, 46; (P), 512
FEATHER, ELIZABETH A., and RUSSELL, GEORGE: Effect of tolazoline hydrochloride on sputum viscosity in cystic fibrosis, 732
FERGUSON, PAULINE W., *see* Kahn, Donald R., Kirsh, Marvin M., Vathayanon, Sathaporn, Willis, Park W., III, Walton, Joseph A., McIntosh, Karen, Ferguson, Pauline W., and Sloan, Herbert
Fever in aspergillus mycetoma, 19
Fibrocystic disease, spontaneous pneumothorax in, treatment by pleurectomy, 165; (P), 256
disease, sputum viscosity in, effect of tolazoline hydrochloride, 732
Fibrosis, pulmonary, in furriers, 387
Fibrothorax, 519
FISHER, MARY, *see* Stewart, Sheila M., Fisher, Mary, Young, Joy E., and Lutz, W.
Fistula, coronary artery, diagnosis and surgical treatment of, 259
tracheo-oesophageal, and oesophageal atresia, results over 30 years, 406
FLETCHER, C. M., *see* Clarke, B. G., Guyatt, A. R., Alpers, J. H., Fletcher, C. M., and Hill, I. D.
Foregut duplication in mediastinum (P), 511
FORGACS, P.: Breath sounds (P), 255

FOX, WALLACE, *see* Stark, J. E., Heath, R. B., Oswald, N. C., Booth, Vivien, Tall, Ruth, Fox, Wallace, Moynagh, K. D., and Inglis, J. M.
FREEMAN, T., *see* Clarke, H. G. Minchin, Freeman, T., Hickman, R., and Pryse-Phillips, W. E. M.
Furrier's lung, 387

G

Gases, analysis in arterial blood, and spirometric measurements, relation between, in chronic airflow obstruction, 598
blood, measurement of, and respiratory failure (P), 511
Gastrooesophageal reflux and formation of posterior pharyngeal pouch, 725
reflux, response of gullet to, in hiatal hernia and oesophagitis, 459

Epsikapron® exerts a powerful and specific inhibitory effect in fibrinolytic bleeding states such as may follow cardio-thoracic procedures or in obstetrical complications, ablatio placentae and postpartum haemorrhage associated with fibrinolysis.

Dosage: Epsikapron (aminocaproic acid) can be administered intravenously or by mouth. The recommended dosage is 0.1g aminocaproic acid per kg bodyweight 5 times daily (i.e. every 4-5 hours). For other indications see literature.

Contraindications: Renal insufficiency because of the risk of accumulation.

Epsikapron is supplied as: Solution for injection 0.4g/ml, 6 ampoules of 10 ml. Effervescent Powder 50%, boxes of 30 sachets. Syrup 0.3g/ml, bottle of 250 ml.

Epsikapron® — *the* fibrinolytic inhibitor

Myambutol®

ETHAMBUTOL

Now firmly established in the vanguard of chemotherapy for tuberculosis

In cases of primary and secondary resistance to one or more of the standard antituberculous drugs . . .

In cases of toxicity, hypersensitivity and intolerance to one or more of the standard antituberculous drugs . . .

To be used in conjunction with Rimactane or other antituberculosis drugs to which the patient's organisms are sensitive

Dosage:

Precise dosage, adjusted according to the bodyweight of the patient, is a critical factor in the administration of Myambutol. Dosage should be calculated with the aid of one of the special Myambutol dosage aids; to obtain samples of these, please apply to Lederle Laboratories.

Side effects:

The only major adverse reaction is a form of optic neuritis. Incidence and severity are closely related to dose and duration of treatment; the reaction seldom occurs at recommended dosages, and withdrawal of the drug usually leads to complete recovery of visual function unimpaired.

Precautions:

After an initial ophthalmic examination at the time of starting therapy in order to establish a base-line, the patient should be told to report any abnormality in vision.

Presentation:

Tablets 400 mg and 100 mg.
